WARNING CONCERNING UNSATISFACTORY PROGRESS

Dear Parent or Guardian:

Date: _____

This letter is to inform you that your child, _____,
is in danger of being placed on probation due to:

_____ Lack of completion of educational activities worth the time value of **5** days of attendance.

_____ A complete lack of effort in one or more academic subjects.

Completion of educational activities worth at least a minimum day of attendance credit and satisfactory performance in academic subjects are both considered to determine satisfactory progress. According to Independent Study law, students must show satisfactory progress to continue with any Independent Study program. USA is classified as an independent study non-classroom-based school. We must abide by the regulations.

If unsatisfactory progress continues, your child will be placed on probation and a conference will then be set up with the teacher and administrator to attempt to resolve the issue. Attendance for students on probation will be monitored, and attendance issues reported to the Del Norte County Truancy Officer. Attendance issues which result in the student falling to below a 90% attendance rate or failing one or more subjects will result in transfer to a classroom-based school due to a lack of progress, as defined in USA charter school policy and required by Independent Study law.

Please ensure your child attends all required classes on a regular basis and completes all assignments to avoid future consequences. Thank you for your attention to this matter.

Sincerely,

Your Child's Homeroom Teacher: _____
