Information for Parent/Guardian:

USA groups students according to ability and emotional readiness rather than by age, so all learning groups are composed of multi-age learners. Usually, a student's grade level is irrelevant since he/she can be placed in an academically appropriate group despite his/her grade level. However, in some cases, it is beneficial for a student to be promoted anyway. The usual reason is because he/she has already been working with a higher grade and is ready academically, socially, and emotionally. This agreement indicates that USA staff, the student indicated in this document, and the parent(s) of that student have all discussed the promotion of this child in his/her grade and have recommended him/her for promotion.

I agree to the promotion of my child (named above) to the indicated grade for the indicated school year.
